Circular

Subject: Introduction of Facilities for Differently Abled Students on Campus

Dear Faculty, Staff, and Students,

We are pleased to announce the introduction of several facilities aimed at enhancing accessibility and inclusivity for **Differently Abled** students on our college campus. It is our commitment to create an environment that fosters equal opportunities and supports the diverse needs of all members of our college community.

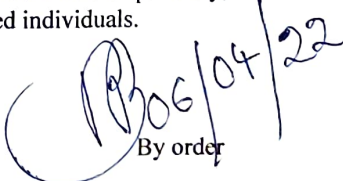

In line with this commitment, the following facilities will be implemented:

1. **PWD Ramps:** Installation of ramps at key locations across the campus to provide barrier-free access for wheelchair users and individuals with mobility impairments. These ramps will ensure smooth and safe passage between different levels of buildings and outdoor spaces.
2. **PWD Toilets:** Establishment of specially designed toilets equipped with features such as grab bars and spacious layout to accommodate the needs of students with physical challenges. These PWD toilets are going to be strategically located to provide convenient access in various areas of the campus.
3. **PWD Railings:** Installation of railings and handrails along staircases and walkways, and to assist individuals with mobility challenges in navigating the campus independently and safely. These railings will offer support and stability, especially for those using mobility aids such as walkers or crutches.
4. **Wheelchairs:** Provision of wheelchairs on campus for use by physically handicapped students who may require mobility assistance during their time at the college.

These initiatives aim to create a more inclusive and supportive environment for physically handicapped students, enabling them to fully participate in academic, social, and extracurricular activities without barriers or limitations.

We encourage all members of the college community to support and utilize these facilities responsibly, ensuring that they remain accessible and well-maintained for the benefit of all concerned individuals.

Sincerely,

By order

Principal
