

BALAGARH BIJOY KRISHNA MAHAVIDYALAYA

ENVS PROJECT REPORT YEAR-WISE

Environmental Science is a Value-Added Course (VAC) under Curriculum and credit Framework for Undergraduate Programme, as per N.E.P. 2020, for Semester 1, paper code 1061, course code AECC-1. The following table contains the list of the project work given to our students in the respective years. Our students carried out the following project work by survey and field work.

Objectives behind the project:

- I. The main purpose behind the project work is to help our students to gather knowledge and use it to recognize the physical, chemical and biological components of earth structure.
- II. Spread awareness about the conservation of our mother nature, natural resources from the hazardous materials like various pollutants, gases, materials etc.

Outcomes:

- I. Environmental project work helps our student to acquire knowledge about the environment, how to use the natural resources, to avoid the misuses of that resources, and to save the same for our near future.
- II. Deal with the good and bad things of our nature and to protect them from the hazardous ways present in the environments.
- III. To preserve the ecological systems, present in water, soil etc.

SL.NO	SEMESTER (H/G)	SESSION	COURSE CODE	PROJECT TITLE
1	1 st (H/G)	2018-2019	AECC-1	1. Deforestation 2. Water Pollution
2	1 st (H/G)	2019-2020	AECC-1	1. Air Pollution 2. Natural Resources
3	1 st (H/G)	2020-2021	AECC-1	1. Tree Plantation 2. Environmental Pollution
4	1 st (H/G)	2021-2022	AECC-1	1. Environmental Pollution (Anyone in your area). 2. Tree Plantation
5	1 st (H/G)	2022-2023	AECC-1	1. Study of birds, insects in a tree. 2. Environmental Pollution (in Balagarh Block).
