Dr. Kuntal Goswami defined the concept of sustainability and highlighted its importance in the present day world. He pointed out various aspects of sustainability such as intra-generational and inter-generational equity. He pointed out how resource consumption in highly developed countries is documented and how sustainability frameworks work. Dr. Goswami mentioned the importance of the role of the media. He highlighted control measures and Sustainability practices accounting, Climate Disclosure Project. He reported that India has provided about 90% disclosure in the project. He concluded by underlining the highly debated question about whether such measures “are too little too late”.

**Outcome:** The students became aware of the concept of sustainability as well as practices adopted worldwide.
